Re.: CDP Application No. 5-19-0971

Dear Commissioners,

The Dana Point Boaters Association supports approval of CDP application number 5-19-0971 for the renovation of Dana Point Harbor marinas and related infrastructure by Dana Point Harbor Partners.

Since our founding in 2006, DPBA has participated actively and collaboratively in the development and evolution of the Dana Point Harbor Revitalization Plan. Both the landside and waterside plans for the renovation of our harbor as outlined in our current Local Coastal Program and within DPHP's planning documents are in many ways a consequence of our organization's involvement over the past 14 years. Our early work with the County of Orange established the foundation for today's plans, and our ongoing collaboration with Dana Point Harbor Partners has continued to refine the plans to the benefit of our Dana Point Harbor community. While our objectives haven't always been perfectly aligned, we believe the CDP application before you represents the culmination of intense stakeholder input and best serves the mutual interests of all parties affected by the plan. We also have confidence that our collaborative work with Dana Point Harbor Partners will continue into the implementation of the plan and operations of our harbor into the future.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "James Lenthall".

James Lenthall, President
Dana Point Boaters Association
