44th Annual Dana Point Festival of Whales

For the past 44 years, Dana Point has celebrated the arrival of the California Gray Whales' passage through the waters off our coast with the Annual Festival of the Whales. The incredible 5000-mile migration of the majestic California Gray Whale from Alaska to Mexico begins in December and continues through March. During this peak season, 40 – 50 whales pass by Dana Point each day, using the Dana Point Headland's 200-foot cliffs near the harbor as a landmark to check their migration path. Dana Point offers the BEST whale watching along the California Coast – don't miss it!

Go to www.FestivalOfWhales.com for the full schedule of fun events for everyone to enjoy.
