Now hear this...Time to stow your dinghies!

This is not a drill! During the busy summer months, enforcement of Marina rules for small craft storage are relaxed. With the advent of autumn, we ask that boaters stow their small craft in accordance with Marina rules:

- Storage is NOT allowed on docks - except across the triangular gussets at the bow (may not be attached in any way).
- May not weigh more than 100 lbs.
- Small craft may not extend more than 3 ft. into the fairway behind your vessel.
- The Marina has a number of small craft storage options:
 - * Dry Dinghy racks for a vessel up to 10 ft.
 - * Kayak racks for a vessel up to 15 ft.
 - * Wet storage for a vessel up to 13 ft. (larger vessels require full slips).

Fall - 2014 Boating Classes from the USCGA
