LOCAL NOTICE TO MARINERS

District: 11 Week: 38/20

CORRESPONDENCE TO:
COMMANDER
DISTRICT ELEVEN (DPW)
COAST GUARD ISLAND BUILDING 50-2
ALAMEDA, CA 94501-5100

REFERENCES: COMDTPUB P16502.6, Light List Volume VI, 2017 Edition, U.S. Chart No.1 12th Edition, and Coast Pilot Volume 7 49th Edition. These publications, along with corrections, are available at: https://nauticalcharts.noaa.gov/

BROADCAST NOTICE TO MARINERS - Information concerning aids to navigation and waterway management promulgated through BNM HB-0015-20, SF-0113-20, LA-0122-20, and SD-0053-20 have been incorporated in this notice, or will continue if still significant.

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

SUBMITTING INFORMATION FOR PUBLICATION IN THE LOCAL NOTICE TO MARINERS

A complete set of guidelines with examples and contact information can be found at http://www.pacificarea.uscg.mil/Our-Organization/District-11/Prevention-Division/LnmRequest/ or call D11 Waterways Management Branch at 510-437-2980 or e-mail D11LNM@uscg.mil. Please provide all Local Notice to Mariners submissions 14 days prior to the start of operations.

BRIDGE INFORMATION- PROJECTS, DISCREPANCIES, CORRECTIONS & REGULATORY

For all bridge related issues, including lighting, operation, obstructions, construction, demolition, etc. contact the Eleventh Coast Guard District Bridge Administrator 24 hour cell phone at 510-219-4366. Flotsam may accumulate on and near bridge piers and abutments. Mariners should approach all bridges with caution. A vessel delay at a drawbridge may be reported to the District Bridge Administrator by telephone, or by using the Delay_Report_11-2017.pdf included in the Enclosures section of this Local Notice to Mariners.

BRIDGE INFORMATION-COMMUNICATIONS PROTOCOL-BENICIA/MARTINEZ UPRR BRIDGE- CARQUINEZ STRAIT

All mariners requiring a bridge lift at the Benicia-Martinez Union Pacific Railroad Bridge, mile 7.0, over the Carquinez Strait, California, should follow the protocol in the document entitled "Coordination of Communications for Union Pacific Railroad Lift Operations." Mariners can download a copy of the document by selecting the link BENICIA-MARTINEZ RR BRIDGE under the QUICK LINKS section at https://www.pacificarea.uscg.mil/vtssf.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids to navigation with varying degrees of reliability. Prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid to navigation. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker which secures the buoy to the seabed. The approximate position is used because of the practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision in position fixing methods, prevailing atmospheric and sea conditions, slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying length of chain, and the fact that the buoy body and/or sinker positions are not under continuous surveillance, but are normally checked only during periodic maintenance visits which often occur more than a year apart. Due to the forces of nature, the position of the buoy body can be expected to shift inside and outside the charted symbol. The mariner is also cautioned that buoys may be extinguished or sound signals may not function as the result of natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Furthermore, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction that the buoy marks.

HUMBOLDT BAY-SHOALING

Due to shoaling at the south jetty tip of Humboldy Bay Bar, swells in excess of 8 ft may adversely affect the main shipping channel. Mariners are requested to transit the area with caution. For more details of comments contact the United States Coast Guard Sector Humboldt Bay at 707-839-6113.

NORTHERN CALIFORNIA-SAN FRANCISCO-MILE ROCKS LIGHT-REDUCED NOMINAL RANGE

Mile Rocks Light (LLNR 365) will have a temporarily reduced intensity of 5nm until further notice. Mariners are requested to transit the area with caution. For more details or comments contact LT Ruth Sadowitz at 510-437-3801.

Charts: 18007 18010 18020 18022 18640 18645 18649 18680 LNM: 16/19

SAN DIEGO-SANTA BARBARA-OBSTRUCTION

There is flag pole located in front of Santa Barbara Harbor Breakwater light (LLNR 3750). The flag pole is approximately 8-10 feet away from the aid, extends about 4-5 feet above the light and is at a bearing of 062. There is a possibility that the flagpole may obscure the visibility of the light if mariners are approaching from that bearing. Mariners are requested to transit the area with caution. For more details or comments contact Sector San Diego at 619-278-7000.

LNM: 27/20

SOUTHERN CALIFORNIA-SAN DIEGO-SUBMERGED OBJECT

A large ship anchor and 300 ft of anchor chain have been reported lost in 39 ft of water one nautical mile west of Silver Strand State Beach at 32-38-24N 117-10-08W. Mariners are requested to transit the area with caution. For more details or comments contact sector San Diego at 619-278-7000.

Chart 18773 LNM: 27/20

SOUTHERN CALIFORNIA-SAN DIEGO-SUBMERGED OBJECT

An anchored 16 ft center console pleasure craft has capsized and remains afloat 600 yds south of Hotel Del Coronado at 32-40-06N 117-10-09W. No Distress is associated with this wreck which has been marked with an unlit red marker buoy in approximately 28 ft of water. Mariners are requested to transit the area with caution. For more details or comments contact Coast Guard Sector San Diego at 619-278-7000.

Chart 18772 LNM: 34/20

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

None

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

Approved Project(s) **Project Date** **Ref. LNM**

None

Advance Notice(s)

SOUTHERN CALIFORNIA-ANAHEIM BAY-TEMPORARY CHANGE

The U.S. Coast Guard will temporarily change the following aids to floating aids in regards to the Anaheim Bay Project:
Anaheim Bay Channel Light 9 LLNR (2820)
Anaheim Bay Channel Light 10 LLNR (2825)
Anaheim Bay Channel Light 11 LLNR (2826)
Anaheim Bay Channel Light 13 LLNR (2827)
Anaheim Bay Channel Light 17 LLNR (2829)
For more details or comments contact LT Ruth Sadowitz at 510-437-3801 or ruth.a.sadowitz@uscg.mil.

Chart 18749 LNM: 15/20

SOUTHERN CALIFORNIA-NEWPORT BAY CHANNEL-AID CONVERSION

The U. S. Coast Guard is proposing to make the temporary buoy for Newport Bay Channel Light 11 (LLNR 2470) a permanent buoy. For more details or comments contact LT Ruth Sadowitz, 510-437-3801 or ruth.a.sadowitz@uscg.mil.

Chart 18754 LNM: 46/19

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

Proposed Project(s) **Closing** **Docket No.** **Ref. LNM**

None

Proposed Change Notice(s)

None

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

ARIZONA-BULLHEAD CITY-COLORADO RIVER-DAVIS DAM

A rocky shoal has been reported below the Davis Dam in position 35-11-34N 114-34-16W where depths are reported between 5' to less than 1'

ARIZONA-BULLHEAD CITY-COLORADO RIVER-DAVIS DAM

depending upon the outflow from the dam. Recreational vessels have been seen running aground after making contact with the rocks as there are no signs or buoys marking the area. Mariners are requested to transit the area with caution. For more details or comments contact USCG Sector San Diego at 619-278-7073.

LNM: 16/18

ARIZONA-COLORADO RIVER-BRIDGE

CIBOLA FARMERS BRIDGE-La Paz County will be conducting rehabilitation of the bridge Monday through Friday during daylight hours, 01 Oct 20 through 12 Aug 21. During the project, a temporary underdeck platform will be installed under span 3 reducing vertical clearance in that span by 4 feet. During the project, the main navigational channel will be temporarily established in span 4, providing 17 feet vertical clearance over ordinary high water and 48 feet horizontal clearance between piers. Span 4 will be marked with upstream and downstream green center channel lights and red pier lights. The upstream and downstream lower edges of the temporary underdeck platform will be lighted at night with steady burning red lights (see Cibola_Alternate_Channel.pdf at the end of this notice). Mariners are requested to transit the area with caution. For conditions at the bridge project site mariners can contact 928-210-1913 or 928-897-1151. For more details or comments, contact the Coast Guard Bridge Office at 510-437-3461.

LNM: 38/20

NEWPORT BAY-TEMPORARY MOORING BUOY

A 5 ft diameter temporary mooring buoy has been installed at 33-37-53N 117-55-12W in Newport Beach turning basin until 30 Nov 20. M/V INVICTUS will be on scene monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact Cuan Nicolay at 323-533-1314.

Chart 18751

LNM: 26/20

NORTHERN CALIFORNIA-BENICIA-DREDGE OPERATIONS

Dutra Construction Company will be conducting dredge operations at the Valero refinery Dock in Benicia, CA at 38-02-33N 122-07-52W, 24 hours a day, 7 days a week until 30 Oct 20. All dredged material will be disposed of at Montezuma Wetllands. DB 24, 04 split hull scows, along with tugs HEIDI L BRUSCO and BECKY T will conduct operations and will monitor VHF-FM Chan. 13, 14, and 80. Mariners are requested to transit the area with caution. For more details or comments contact Mr. Dennis Salyers at 415-497-5289.

Charts: 18656 18660

LNM: 30/20

NORTHERN CALIFORNIA-CARQUINEZ STRAIT-BRIDGE

I-680 HIGHWAY BRIDGES- NOAA will conduct maintenance of fish monitoring equipment at various piers of the two bridges from 0800-1500 on 30 Sep 20, utilizing a 23' aluminum workboat R/V GOLDENEYE F2220 with large letters "RESEARCH" on its sides. R/V GOLDENEYE will be monitoring VHF-FM Chan. 16 and cell phones 415-632-8544, 831-353-4825, and 831-431-3832. Mariners are requested to exercise caution when transiting through the work site.

Chart 18657

LNM: 38/20

NORTHERN CALIFORNIA-CLINT BASIN-PORT OF OAKLAND-MARINE CONSTRUCTION

Dutra Construction Company will conduct marine construction within Clint Basin at 37-47-18n 122-15-36W during weekdays and daylight hours from 02 Nov 20 until 01 Dec 20. CB-12 and small skiffs will be utilized during operations. All vessels will monitor VHF-FM Chan. 09 and 16 or by calling Robert Utley, Project Superintendent, at 415-686-9397. During off hours and weekends CB-12 will be moored adjacent to the wharf. Mariners are requested to transit the area with caution. For more details or comments contact Stephen Hutchinson at 510-254-4410.

Charts: 18649 18650

LNM: 38/20

NORTHERN CALIFORNIA-CORDELL BANK-SURVEY OPERATIONS

NOAA has deployed two research moorings in the following positions:
38-03-03N 123-27-24W
34-03-24N 123-29-09W
These are orange mooring buoys that have a flat surface float, flagpole, flag, and radar reflector. R/V MUSSEL POINT will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact Danielle Lipski at 415-464-5264.

Charts: 18010 18645

LNM: 52/18

NORTHERN CALIFORNIA-CORTE MADERA CREEK-BRIDGE

BON AIR RD BRIDGE REPLACEMENT-Construction of the replacement bridge is in progress. A temporary work trestle spans the channel and provides 20’ of horizontal clearance, pile to pile, and 3' of vertical clearance from mean high water to the lowest hittable portion of the trestle (see BonAirRd_Trestle.pdf at the end of this notice for navigation channel location). Four cofferdams have been placed within the creek to facilitate construction of the replacement bridge piers. Work will be conducted Monday through Saturday from 0700-1800. Mariners are requested to transit the area with caution. For conditions at the construction site, mariners can contact the contractor at 925-953-4610/916-919-2428 or the city at 415-259-7050. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18649

LNM: 41/18

NORTHERN CALIFORNIA-CRESCENT CITY-DREDGING OPERATIONS

Camenzind Dredging Inc. will conduct maintenance dredge operations in the Federal Inner Harbor Channels at Crescent City Harbor 24 hours a day 7 days a week from 25 Sep 20 to 30 Oct 20. Dredge operations will start at position 41-44-49N 124-11-03W and end at position 41-44-10N 124-11-20W. Floating submerged pipeline will be marked with yellow floats and anchors will be marked with white buoys. Dredged material will be disposed of at the Crescent City furnished beach disposal site at Whaler Island in position 41-44-26N 124-10-57W. Dredge PAUL VINCENT, work boat FESTER, and skiffs will be on scene and monitoring VHF-FM Chan. 16 and 86. Mariners are requested to transit the area with caution. For more details or comments contact Kurt Camenzind at 650-444-8453.

Chart 18603

LNM: 38/20

NORTHERN CALIFORNIA-DELTA & RIVERS-AMERICAN RIVER-BRIDGE

AMERICAN RIVER (DOWNRIVER) BRIDGE (CA RT 160)-Caltrans’ contractor Dutra has begun a scour mitigation project at each in-water pier of the bridge. Work will be conducted 0600 to 2200, Monday through Sunday, through 15 Oct 20. The tug “SEA TOW” , three 30’ x 60’ flexi float spudded

NORTHERN CALIFORNIA-DELTA & RIVERS-AMERICAN RIVER-BRIDGE

barges, one equipped with a 336 Excavator and two as material/support barges, with a work boat and miscellaneous small skiffs, will be utilized on the project at various times at each pier of the bridge. A temporary trestle will be erected from the northeast river bank between the upriver and downriver bridge and extend 30' into the river. The upriver and downriver outer corners of the trestle will be lighted at night. After normal working hours, the barges will be left on-scene/unmanned, either spudded in the river or moored to the trestle. Each corner of each barge will be lighted at night. In the event a barge breaks away from its mooring, it can be retrieved within one-hour of notification by contacting Dutra at 707-974-9937, 707-333-5029, 707-974-7487 or 415-680-8970. For conditions at the site during working hours, mariners can contact the "SEA TOW" on VHF-FM chan. 13, 14, or 16, or via cell at 415-720-7012. Mariners are requested to transit the area with caution. For more details or comments contact the Coast Guard Bridge Office at 510-219-4366.

Chart 18662 LNM: 30/20

NORTHERN CALIFORNIA-DELTA & RIVERS-MIDDLE RIVER-BRIDGE

WOODWARD ISLAND REMOVABLE SPAN BRIDGE- On 23 Jul 20, the Coast Guard issued a Notice of Proposed Rulemaking for the Woodward Island Bridge, mile 11.8, over Middle River, between Upper Jones Tract and Woodward Island, near Discovery Bay, San Joaquin County, California.

The proposed rule is as follows: The removable span of the Woodward Island Bridge, mile 11.8, near Discovery Bay, shall be removed as soon as possible upon notification by the District Commander that an emergency exists which requires its removal.

The public will be allowed to submit comments concerning this proposed rule, identified by docket number USCG-2020-0137, by using the Federal eRulemaking Portal at http://www.regulations.gov through 21 Oct 20.

For further information contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18661 LNM: 30/20

NORTHERN CALIFORNIA-DELTA & RIVERS-MOKELUMNE RIVER-BRIDGE

I-5 DUAL BRIDGE-Caltrans' contractor has installed three temporary trestles to facilitate retrofit of the dual bridge, one upstream, one downstream and one between the dual bridge. The temporary trestles provide ~9 feet of vertical clearance from Mean High Water to low steel of each trestle and 30 feet of horizontal clearance between bents 2 and 3. The vertical clearance can fluctuate due to changes in the water surface elevation caused by runoff, snowmelt and dam releases. The upstream and downstream temporary navigation span, between bents 2 and 3, are lighted at night with steady burning green lights. The upstream and downstream faces of bents 1, 2, 3 and 4 are lighted at night with steady burning red lights (See I-5_MokeRiver_Trestles.pdf at the end of this notice for lighting diagram.) Work is being conducted Monday through Friday, 0600 to 1530,through 21 Jul 21. For information at the construction site mariners can contact 916-208-6416, 209-518-6936, 916-283-9949, 916-757-2989 or 530-409-8103. Mariners are requested to use extreme caution when transiting the work site as there will be cranes working over the channel. For further information, mariners can contact the Coast Guard Bridge Office at 510-219-4366.

Chart 18662 LNM: 37/20

NORTHERN CALIFORNIA-DELTA & RIVERS-NOYO RIVER-DREDGE OPERATIONS

Camenzind Dredging Inc. will be conducting continuous dredging operations in Noyo River between 39-25-39N 123-48-39W and 39-25-27N 123-48-08W, 24 hours a day, 7 days a week until 01 Nov 20. Dredged material will be disposed at Historical Upland Disposal Site. The submerged pipeline will be marked with yellow floats and anchors with white buoys. D/V PAUL VINCENT, Work boat FESTER, and various skiffs will be monitoring VHF-FM Chan. 16 and 68. Mariners are requested to transit the area with caution. For more details or comments contact Project Manager, Kurt Camenzind at 650-424-0367.

Chart 18626 LNM: 29/20

NORTHERN CALIFORNIA-DELTA & RIVERS-PETALUMA RIVER-BRIDGE

SMART BLACKPOINT RAILROAD DRAWBRIDGE-The upstream fender system protecting the swing span has been destroyed and does not offer protection for vessels or the bridge. Mariners are urged to use caution while transiting the bridge. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18654 LNM: 35/20

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

PIONEER BRIDGE-Caltrans' contractor has temporarily moored two 130' X 80' barges just upstream on the northwest (West Sacramento riverbank) side of the bridge at a staging area for supplies for the 2020-2021 fender replacement project at the Tower Drawbridge (See Pioneer_Barge_Mooring.pdf in the enclosure section of this notice). Barges may or may be at the site depending on the status of work at the Tower Bridge. When moored, the outboard corners of the barges will be lighted at night with steady burning white lights so as to be seen by approaching vessels at 2,000 yds. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18662 LNM: 26/20

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

TOWER DRAWBRIDGE FENDER REPLACEMENT PROJECT-Caltrans' contractor, Golden State Bridge, is currently replacing the western tower fender from 0700 to 1900, seven days a week, through 31 Oct 20. An 80' X 60' X 7' crane barge and an 80' X 40' X 7' excavator barge will be spudded down just inboard of the west pier during the work day leaving 111' of horizontal clearance in the drawspan for vessels. For the safety of navigation, barges can be moved with a 2-hour advance notice to the Tug SS Piper via VHF-FM Chan. 16. After normal working hours the barges will be moved and spudded down outboard of the west pier, outside the bridge's drawspan. To report a breakaway barge contact 925-726-7085. The barges will be lighted at night with steady burning all-round red lights (see Tower_Fender_Barge_Lighting.pdf in the enclosure section of this notice). At no time during the work will the operation of the drawspan be impeded. For conditions at the work site contact Caltrans at 530-701-2910. For more details or comments contact the Coast Guard Bridge Office at 510-219-4366.

Chart 18662 LNM: 26/20

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

RIO VISTA DRAWBRIDGE-Temporary platforms are installed beneath low steel of the bridge in spans 2 and 8 reducing vertical clearance in those spans by no more than 4 feet through 01 Oct 20. The upriver and downriver temporary platforms and associated support cables are lit at night with steady burning red lights (see RVBridge_PlatformCable_Lighting.pdf enclosure at the end of this notice.) At no time will the lift span of the bridge be impacted. Mariners are urged to use alternate spans of the bridge. For conditions at the bridge, mariners can contact the contractor at

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

925-260-2104 or 925-260-1884. For further information contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18661 LNM: 22/20

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

PIONEER BRIDGE-Caltrans will be conducting underdeck structural repairs and installation of vertical clearance gauges, 24-hours a day, Monday through Friday, through 31 Oct 20. A scooper truck, with an attachment arm and work platform, will be utilized during nighttime hours for underdeck repairs, reducing bridge vertical clearance by no more than 10ft. The work platform will be lighted at night with fixed red lights. For installation of the vertical clearance gauges, an 80'x40' spudded barge will be tied off at various times to the inboard piers of the northwest and southeast navigation spans of the bridge during daylight hours. After normal working hours the unmanned barge will be tied off to piers out of the navigation spans. The barge, "SS PIPER", will be monitoring VHF-FM Chan. 14, and be lighted at night with fixed red lights (see Pioneer_Barge_Platform_Lighting.pdf in the Enclosure Section at the end of this notice). For navigational conditions at the project site, mariners can contact 916-801-6414 or 925-260-0403 or 925-457-5928. Mariners are requested to transit the area with caution. For more details or comments contact the Coast Guard Bridge Office at 510-437-3461.

Chart 18662 LNM: 38/20

NORTHERN CALIFORNIA-DELTA & RIVERS-SACRAMENTO RIVER-BRIDGE

PAINTERSVILLE DRAWBRIDGE-Retrofit of the bridge is being conducted 0700 to 1900 Monday through Friday, through 15 Nov 20. The existing dolphins have been removed and will not be reinstalled until retrofit of the four in-water piers is complete. A 60' X 160' crane barge, a 50' X 160' Kelso barge and a 50' X 150' material barge will be spudded down on-scene during the work. Barges will be unmanned, and remain on scene overnight. The upriver and downriver navigation channel piers will be lighted at night with steady burning all-round red lights. Falsework is being installed around all in-water piers. The falsework will extend 6.75' into the bascule span from the face of piers 3 and 4. The channel-ward edge of the falsework does not extend past the tips of the bascule leafs when the bridge is in the open-to-navigation position. The upriver and downriver corners of the falsework will be lighted at night with steady burning all-round red lights. (See Temp_Lighting_Paintersville_Bridge.pdf at the end of this notice for temporary pier and falsework lighting.)

Due to structural issues and the ongoing retrofit work, the drawspan will be conducting single leaf operations until further notice. The western leaf of the double leaf bascule bridge will open for vessels with a 2-hour advance notification from 0600 to 2200 until 31 Oct 20 and from 0900 to 1700 thereafter, at all other times a 4-hour advance notification is required. From the tip of the western bascule leaf (in the open position) to the end of the eastern leaf (in the closed position) the bridge span provides approximately 77 feet of horizontal clearance and unlimited vertical clearance. For work conditions at the bridge and availability of the drawspan, mariners can contact the contractor at 916-208-6416 or 916-297-2037 or 415-755-5421. Please contact the Coast Guard Bridge Office at 510-437-3516 to comment on this project.

ELKHORN FERRY (I-5) BRIDGE-The upstream clearance gauge is missing. For more details or comments contact the Coast Guard Bridge Office at 510-437-3514.

Chart 18664 LNM: 13/19

NORTHERN CALIFORNIA-DELTA & RIVERS-STANISLAUS RIVER-BRIDGE

RIPON (CA RTE 99) BRIDGE-Modification of the bridge is in progress. A temporary trestle has been erected across the river to facilitate bridge modification work activities. A San Francisco Coast Guard Captain of the Port Safety Zone has been established in and around the work site restricting mariners from entering the zone without the explicit permission of the Captain of the Port or designated representative. The safety zone is in effect from 1201 on 15 Jun 20 through 2359 on 07 Nov 20. If given permission, vessels transiting the work site will find the temporary navigation span at the center of the river. The temporary navigation span provides at least 9 feet of vertical clearance, from the summer water surface elevation to low steel, and 12 feet of horizontal clearance, in the center of the river. The upriver and downriver center of the temporary navigation channel is marked with an all-round green light and the upriver and downriver navigation channel trestle bents are marked with all-round red lights. (See RiponBridgeTrestleLighting.pdf enclosure at the end of this notice.) Temporary buoys, upriver and downriver of the bridge, mark safe passage for mariners. For information at the project site, mariners can contact the contractor at 916-869-4423; 916-200-8706 or Caltrans at 209-609-4910; 209-470-8790. For further information concerning the project contact the Coast Guard Bridge Office at 510-219-4366.

LNM: 27/20

NORTHERN CALIFORNIA-DELTA & RIVERS-THREE MILE SLOUGH-BRIDGE

THREE MILE SLOUGH DRAWBRIDGE-The drawspan is secured in the closed-to-navigation position due to electrical issues. Estimated time of repair is unknown. The bridge provides 12 ft of vertical clearance in the closed position. Vessels that can transit the bridge while closed can continue to do so. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18661 LNM: 36/20

NORTHERN CALIFORNIA-GROVER BEACH-UNDERWATER OPERATIONS

Krull Telecom will be conducting dive operations off shore of the city of Grover Beach at 35-07-17N 120-39-01W, starting 17 Sep 20 until 02 Oct 20. The M/V JAB will be on scene and in support of the installation of telecommunications conduits and will be monitoring Chan. VHF-FM 13 and 16. Mariners are requested to transit at their slowest safe speed to minimize wake and proceed with caution. For more details or comments contact Chris Brungardt at 916-949-9141.

Chart 18700 LNM: 34/20

NORTHERN CALIFORNIA-HUMBOLDT BAY-DREDGE OPERATIONS

The Dutra Group will be conducting dredge operations at the Humboldt Bay Bar and Entrance Channels in the vicinity of Humboldt Bay LB 10 (LLNR 8200) 24 hours a day, 7 days a week until 30 Oct 20. All dredged material will be disposed of at HOODS disposal site at 40-48-20N 124-17-17W. D/B STUYVESANT will conduct operations and will be monitoring VHF-FM Chan. 13 and 16. The aids listed below will be temporarily relocated for the extent of dredging operation, and should not be used for navigation:
Humboldt Bay LB 9 (LLNR 8195)
Humboldt Bay LB 10 (LLNR 8200)
Mariners are requested to transit the area with caution. For more details or comments contact Chris Milam at 415-218-6739.

NORTHERN CALIFORNIA-MOSS LANDING-WAVEGLIDER DATA COLLECTION

Monterey Bay Aquarium Research Institute (MBARI) is conducting 24 hours per day 7 days a week autonomous, unmanned maritime vehicle operations of two Liquid Robotics, Inc. Wavegliders until 31 Dec 20. Vehicles will be deployed in the vicinity of Moss Landing that will operate continuously between latitudes 35-07-12N and 37-12-00N and will extend shoreward as far West as 122-58-35W. Operations consist of scientific ocean data collection. The Waveglider carries no fuel, lubricants or hydrocarbons. It is wave powered and remotely attended from MBARI, moving at speeds of ~1kt, and designed to give way or part if encountered by a vessel. It is approximately 6.5' x 2' (surfboard size), yellow in color, with a contact plaque and mast extending 3' above the water surface, supporting a flag. Mariners are requested to transit the area with caution. For more details or comments contact MBARI at 831-775-1700, waveglider@listserver.mbari.org or Liquid Robotics 24/7 WGOC Operations at 888-574-4574.

NORTHERN CALIFORNIA-SAN FRANCISCO BAY-BRIDGE

SAN MATEO/HAYWARD BRIDGE-Structural repairs to the superstructure of the bridge are being conducted from 0700 to 1530, Monday through Friday, through 15 May 22. Current location of work is at piers 15, 16, 28 and 29. At no time will work be conducted or floating equipment placed in the main navigation span of the bridge, piers 19-20. Various size barges will be used during the project, the largest being a 100' X 20' flexifloat barge. During the work day, barges will either be spudded down or tied to the bridge piers, no anchors or anchor line will be utilized. After regular working hours, the unmanned barge will be left on-site unless inclement weather is anticipated, then the barges will be spudded down at pier 12, west of the main navigation span. For the safety of navigation, the barges can be moved with one-hour advance notice. For conditions at the bridge mariners can contact Golden State Bridge, Inc., on VHF-FM Marine Radio Channels 13, 14, and 16 or by cell phone at 707-246-0725, 925-260-2104, or 925-382-7288. For more details or comments contact the Coast Guard Bridge Office at 510-219-4366.

33-50-56N 120-07-06W
34-01-06N 119-19-00W
36-22-13N 122-18-53W
Mariners are requested to transit the area with caution. For more details or comments contact Keith Wycoff at 831-656-2567.

Charts: 18685 18700 18720 LNM: 48/18

NORTHERN CALIFORNIA-SUISUN BAY-MARINE CONSTRUCTION

Underwater Resources INC will be constructing a floating pipeline alongside the Valero Benicia Refinery that will extend upstream and northeast along the shoreline from the Crude Oil Dock located on the northern shoreline of the Carquinez Strait between positions 38-03-24N 122-07-20W and 38-03-18N 122-07-11W until 15 Oct 20. The pipeline will be partially submerged and will be marked with blue 55 gallon barrels affixed to the pipeline every 20-feet and yellow flashing lights at night. During the period of construction, a 27ft utility work boat and 30ft x 40ft barge also be utilized alongside the entire length of the pipeline to perform both in-water testing and to affix concrete ballast blocks that will be spaced every 10-feet along the floating alignment. The pipeline will be securely moored in 20-foot of water depth and shall remain out of the main navigational channel, parallel to and as close to the shoreline as the shallow water depth will allow. Mariners are requested to transit the area with caution. For more details or comments contact Tom Belcher at 510-957-5097.

Chart 18656 LNM: 37/20

NORTHERN CALIFORNIA-SUISUN MARSH-BOAT LOCKS

The California Department of Water Resources have installed flashboards across the maintenance channel at the Suisun Marsh Salinity Control Structure, located 2.2 nm from the easterly end of Montezuma Slough at 38-05-36N 121-53-07W. The boat lock will operate daily from 0700-1700 until 31 May 21. Signs and lights are currently posted to warn vessels to avoid the use of the maintenance channel on the east side of the facility. The boat lock signal is a standard traffic light. Whistle signals to request opening are two prolonged blasts followed by two short blasts. VHF-FM Chan. 13 will be monitored during hours of operation. The boat lock is located on the east side of the channel and provides the following clearances: 16 feet horizontally; 9' over the sill at MLLW; 70' in length between sector gates; and no vertical impairment. The piers will be marked by fixed red lights, and other parts of the structure will be marked by fixed yellow lights. Mariners should be aware a shoal area exists along the east bank on both sides of the structure extending approximately 50' out from the existing levee. Marker buoys have been placed to identify the area. Mariners are requested to transit the area with caution and be advised that the Salinity Control Structure operations can at times create currents at the site greater than currents in other areas of Montezuma Slough. For more details or comments contact Reza Shahcheraghi at 916-574-2299.

Chart 18656 LNM: 36/20

NORTHERN CALIFORNIA-WESTPOINT HARBOR-REDWOOD CITY-DREDGE OPERATIONS

Lind Marine will conduct dredge operations at Westpoint Harbor Marina in Redwood City, CA at 37-30-50N 122-11-38W from 0600-1800 daily until 30 Oct 20. Vessels will transport dredged material to Alcatraz (SF-11) disposal site. Dredge barge SONNIE DELIGHT and/or DIGBY, 04 dump scows; along with tug BERNICE LIND will be on site monitoring VHF-FM Chan. 11, 13, and 14. Mariners are requested to transit the area with caution. For more details or comments contact Skyler Coleman at 707-291-6367.

Chart 18651 LNM: 22/20

SAN FRANCISCO BAY-OAKLAND HARBOR-UNDERWATER REPAIR

Manson Construction Co. will be performing underwater repair work on the BART Transbay Tube replacing the Anode Sleds and cables until 03 Nov 20. Work will be performed in the following positions near Yuerba Buena Island:

37-48-11N 122-22-24W
37-48-14N 122-22-09W
37-48-19N 122-21-41W
37-48-19N 122-21-27W
37-48-29N 122-20-43W
37-48-31N 122-20-29W
37-48-33N 122-20-13W
37-48-41N 122-20-17W

D/B EINAR will monitor VHF-FM Chan. 13, 14, 16, 66 and 67. Mariners are requested to transit the area with caution and maintain a 500' radius from work locations. For more details or comments contact Mike Ramos at 510-648-5766.

Chart 18649 LNM: 31/20

SOUTHERN CALIFORNA-SAN PEDRO CHANNEL–BOEING XLUUV OPERATIONS

Boeing is conducting engineering sea trials for an extra-large unmanned under sea vehicle (USV) called ECHO VOYAGER in the vicinity of the San Pedro Channel and Northeast of Santa Catalina Island until 10 Oct 20 in the areas bound by the following coordinates:

OPAREA 1:
33-42-25N 118-19-55W
33-39-43N 118-21-36W
33-41-13N 118-24-37W
33-43-48N 118-22-48W
OPAREA 3:
33-26-33N 118-26-55W
33-25-33N 118-23-59W
33-25-35N 118-21-19W

33-31-34N 118-23-31W
33-28-10N 118-26-55W

M/V AMERICAN ISLANDER and Range Boat SB2 will be on scene and monitoring VHF-FM Chan. 16. Mariners are requested to keep 500 yds distance from the USV and M/V AMERICAN ISLANDER. Mariners are requested to transit the area with caution. For more details or comments contact the project manager Ross Peterson at 714-262-1580.

Chart 18022 LNM: 27/20

SOUTHERN CALIFORNIA- DANA POINT TO POINT ARGUELLO - VOLUNTARY SPEED REDUCTION

NOAA and the USCG request that all vessels 300 gross registered tons (GRT) or larger reduce speeds to 10-knots or less when transiting from Dana Point to Pt. Arguello until 15 Nov 20, to protect endangered whales; see enclosure VSRMap2020_SC.pdf. These areas contain populations of endangered blue, humpback and fin whales that are federally protected under the Federal Endangered Species Act (16 USC 1538 et seq.), the Marine Mammal Protection Act (to protect endangered whales 16 USC 1361 et seq.), and the National Marine Sanctuaries Act (16 USC 1431 et seq.). Vessels already transiting south of the northern Channel Islands are also encouraged to transit outside of the voluntary extended area to be avoided to reduce the overlap of ships and endangered whales.

Please report any collisions with whales or any observed injured or dead whales to the U.S. Coast Guard on VHF Channel 16. NOAA is asking for the public's help in tracking whales. Please report sightings through WhaleAlert, a free application available at http://westcoast.whalealert.org.

SOUTHERN CALIFORNIA- MORRO BAY-MARINE CONSTRUCTION

Associated Pacific Constructors, Inc. will conduct marine construction at Roses Landing in Morro Bay, CA at 35-21-55N 120-51-13W until 31 Oct 20. A Modular crane barge will be on scene conducting operations and will monitor VHF-FM Chan. 09 and 16. Mariners are requested to transit the area with caution. For more details or comments contact Paul Gillen at 805-772-7472.

Chart 18703 LNM: 17/20

SOUTHERN CALIFORNIA-CATALINA ISLAND-BUOY DEPLOYMENT

Marine BioEnergy Inc. has deployed a temporary buoy near Catalina Island at 33-28-13N 118-29-33W. This will be a 7' yellow buoy with Fl Y 4s light characteristic. Mariners are urged to transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. For more details or comments contact Cindy Wilcox at 818-653-9017 or 818-952-6018.

Charts: 18746 18757 LNM: 47/19

SOUTHERN CALIFORNIA-CONSTRUCTION-SAN DIEGO-SAN DIEGO BAY

Manson Construction Co. is conducting construction activities in San Diego Bay at Naval Base San Diego Pier 8. This project includes demolition of the existing Pier 8 and rebuilding the Pier 8 replacement which will involve pile driving and pier construction utilizing derrick barges and flat barges. The approximate location of the project is 32-40-23.40 N, 117-07-21.76. This project is expected to be completed by 21 Apr 21. During construction operations, vessel operators with Manson Construction Co. can be contacted on VHF frequencies 13, 16, and 67. Mariners are requested to transit at their slowest safe speed to minimize wake while in the vicinity of construction operations and proceed with caution after passing arrangements have been made. For more details or comments contact Mr. Jack Fernandez at 904-495-4835.

Chart 18773 LNM: 20/20

SOUTHERN CALIFORNIA-DEL MAR NEARSHORE-BUOY DEPLOYMENT

Scripps Institution of Oceanography have deployed a buoy 1200 yds off the coast of Del Mar, CA at 32-57-23N 117-16-46W. The wave buoy is a 3' diameter sphere with an attached telemetry whip antenna and a yellow light FL (5) Y 20s. The buoy is painted yellow and marked "Wave Buoy" with the phone number 858-534-3032. Mariners are requested to transit the area with caution. For more details or comments contact James Behrens at 858-534-3032.

SOUTHERN CALIFORNIA-MONTEREY BAY-WAVE GLIDER

The Jupiter Research Foundation (JRF) in collaboration with Monterey Bay Aquarium Research Institute (MBARI) will be conducting 24/7 autonomous, unmanned maritime vehicle operations of four Liquid Robotics, Wave Gliders (www.liquidr.com) until 30 Jan 21. We plan to deploy the vehicles in the vicinity of Moss Landing that will operate continuously between latitudes 35-07-14 N and 37-12-00 N and will extend shoreward from as far West as 124 W longitude. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from JRF or Liquid Robotics Wave Glider Operations Center (WGOC), moving at speeds of approximately 1.5kt, and designed to give way or part if encountered by a vessel transmitting AIS. It is approximately 10' x 2' (surfboard size), green/copper in color, with a contact plaque and mast extending 1 meter above the water surface supporting a flag. Mariners are advised to use caution when transiting the area. For further information, authorities and mariners can contact JRF operations at +1-650-947-9920, or Liquid Robotics 24/7 WGOC Operations at 888-574-4574, +1 408-636-4205.

SOUTHERN CALIFORNIA-POINT CONCEPTION-WAVERIDER BUOY

University of California, San Diego and the U.S. Army Corps of Engineers have deployed a waverider buoy (Station 071-Harvest Buoy) in position 34-27-06N 120-46-48W, approximately 16 nm west of Point Conception, CA. The buoy is a 3' diameter sphere with an attached telemetry whip antenna and Fl (5) Y 20s light characteristic, the buoy is painted yellow and is marked "Wave Buoy". For more details or comments contact James Behrens at 858-534-3032.

Charts: 18700 18720 18721 LNM: 41/18

SOUTHERN CALIFORNIA-POINT CONCEPTION-WAVERIDER BUOY

University of California, San Diego and the U.S. Army Corps of Engineers have deployed a waverider buoy (Station 222-Santa Lucia Escarpment) in position 34-46-00N 121-29-48W, approximately 54 nm northwest of Point Conception, CA. The buoy is a 3' diameter sphere with an attached telemetry whip antenna and Fl (5) Y 20s light characteristic, the buoy is painted yellow and is marked "Wave Buoy". For more details or comments contact James Behrens at 858-534-3032.

Chart 18700 LNM: 41/18

SOUTHERN CALIFORNIA-POINT MUGU-BUOY DEPLOYMENT

Scripps Institution of Oceanography has deployed an atmospheric sampling buoy south of Point Mugu, CA in position 34-03-12N 119-09-47W. The yellow buoy will be exposed 12' above the waterline and will be flashing FL 1 Y 4s. For more details or comments contact Lisa Hazard at 858-822-2873.

Charts: 18720 18725 LNM: 26/18

SOUTHERN CALIFORNIA-PORTS OF LOS ANGELES/LONG BEACH-CERRITOS CHANNEL-BRIDGE

REPLACEMENT SCHUYLER HEIM BRIDGE CONSTRUCTION-Two temporary trestles are in place between the Henry Ford Railroad Bridge and the replacement bridge. The replacement bridge provides 75' of horizontal clearance and 45' of vertical clearance from mean high water to low steel. Work is taking place from 0600 to 1600, Mon-Fri. For conditions at the bridge, mariners can contact Caltrans at 562-572-5852, 310-882-3160, 949-394-9168, 310-715-9500; or the contractor at 818-489-5772, 909-322-4424. Mariners are requested to transit the area with caution. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18749 LNM: 38/20

SOUTHERN CALIFORNIA-PORTS OF LOS ANGELES/LONG BEACH-LA/LB HARBOR-BRIDGE

VINCENT THOMAS BRIDGE-Painting of the under deck of the bridge continues. A 180' long platform is being erected below low steel of the bridge, just to the east of the west channel margin red light, reducing vertical clearance by 5' 4". Once a 90' section is complete, that section of the platform will be moved to the east, in a leap frog technique. The platform will migrate towards the east until it reached 250' west of centerline of the bridge span. Each corner and every 50' along the upstream and downstream side of the platform will be lighted at night with steady burning red lights (see V_Thomas_Platform_Lighting1.pdf at the end of this notice). Work will take place during daylight hours, Monday through Friday. For conditions at the bridge mariners can contact 213-479-4138, 213-479-1144 or 310-261-9552. For more details or comments contact the Coast Guard Bridge Office at 510-437-3516.

GERALD DESMOND BRIDGE REPLACEMENT PROJECT-Underdeck platforms have been installed to conduct finishing work on the replacement bridge. The platforms are above low steel of the existing being replaced bridge. There is no reduction in vertical clearance in the navigation channel. For conditions at the work site, mariners can contact the contractor via marine radio on VHF-FM CH 13 and 79 or by cell at 424-230-9925. For more details view the website, www.NewGDBridge.com/Waterway, or contact the Coast Guard Bridge Office at 510-437-3516.

Chart 18749 LNM: 38/20

SOUTHERN CALIFORNIA-SAN CLEMENTE ISLAND-SAFETY ZONES

Mariners operating in the vicinity of San Clemente Island are reminded of the restricted waterway access surrounding San Clemente Island (33 CFR 165.1131; 33CFR 165.1141). Since the inception of the regulations, numerous safety zone violations have been processed by Coast Guard Sector San Diego. Safety Zone Incursions put the public at risk and cause costly and unnecessary training delays, as well as range cancellations. Violators of the San Clemente Island Safety and Security Zones are subject to monetary penalties. Criminal penalties may also be issued for repeated Safety and/or Security Zone violations. Failure to comply with the federal regulations could result in civil penalties of up to $90,901.00.
Furthermore, if a mariner holds a Merchant Mariner Credential, suspension or revocation action may be pursued against the mariner's credential.
For more details see MSSB 02-16 SCI Safety Zone.pdf in the enclosure section.

SOUTHERN CALIFORNIA-SANTA BARBRA HARBOR-WAMS

The U. S. Coast Guard is conducting a Waterways Analysis Management System (WAMS) study of Santa Barbara Harbor until 15 Dec 20 and can be found by using the following link: https://www.surveymonkey.com/r/SantaBarbraHarbor. This questionnaire seeks to obtain data on the effectiveness of the system of Aids to Navigation in Santa Barbara Harbor, as well as other waterway safety concerns. This Coast Guard will use this information to ensure that the aids are serving their intended purpose. The Coast Guard also uses the concerns of waterways users to assist with other or future waterway management decisions. Any interested company or individual wishing to provide recommendations on existing or additional aids to navigation in this area are welcome to participate by submitting a user survey. To receive further information, contact District 11 Waterways, LTJG LaMartina at Gabriel.W.LaMartina@uscg.mil.

Longitude 123, Inc. will conduct pipeline recovery operations in Ventura, CA in the vicinity of position 34-18-00N 119-22-00W during daylight hours until 30 Sep 20. Mariners are requested to transit the area with caution. For more details or comments contact Scot Anderson at 805-796-1235.

Charts: 18720 18725 LNM: 35/20

SOUTHERN CALIFORNIA-VENTURA-GEOPHYSICAL SURVEY

FUGRO USA MARINE INC. will be conducting a Geophysical and Bathymetric Survey until 02 Oct 20 during daylight hours, offshore of Ventura, CA in the following positions or see VENTURA_GEOPHYSICAL SURVEY.pdf in the enclosure section of the LNM:
34-15-22N 119-17-34W
34-14-59N 119-17-35W
34-15-05N 119-16-20W
34-15-27N 119-16-27W
The M/V JULIE ANN will be towing up to 300 ft of cable and will monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact Eddie Stutts or Cindy Pratt at 805-650-7000.

Chart 18725 LNM: 36/20

SOUTHERN CALIFORNIA–OFFSHORE SILVER STRAND-SAN DIEGO–GEOPHYSICAL SURVEY OPERATIONS

The Scripps Institution of Oceanography will be conducting CSEM surveys on 23 Sep 20 in the vicinity of position 32-35-0N 117-10-0W. Survey instruments will be trailing behind the R/V BEYSTER 400ft near the seafloor. The R/V BEYSTER will be monitoring VHF-FM Chan. 13 and 16. Mariners are requested to transit the area with caution. For more details or comments contact Jillian Maloney at 619-228-6075.

Charts: 18765 18772 LNM: 38/20

SOUTHERN CALIFORNIA–SAN DIEGO–SMALL BOAT OPERATIONS

The U.S. Navy will be conducting unmanned surface vehicle (USV) operations from 28 SEP 20 to 02 OCT 20 approximately 10 nautical miles west of Mission Bay near position 32-36-19N 117-25-15W. Operations will consist of scientific ocean data collection using multiple USV deployed from a 42 ft research vessel. The wave glider is a surfboard size craft approximately 10 ft long and 3 ft wide with only a few inches of freeboard. It has a 3 ft mast with orange flag and fixed all around white light. It has a cruising speed of approximately 1 knot and a restricted ability to maneuver, however it is designed to give way if encountered by a vessel. During testing the wave gliders will be directed to transit three racetrack paths near the specified coordinates. The vessel will monitor VHF-FM Chan. 16. Due to USV restricted maneuverability, mariners are requested to transit the area with caution and to maintain a safe distance of 1000 yds from these systems. For more details or comments contact Jennifer Pels at jennifer.pels@spawar.navy.mil.

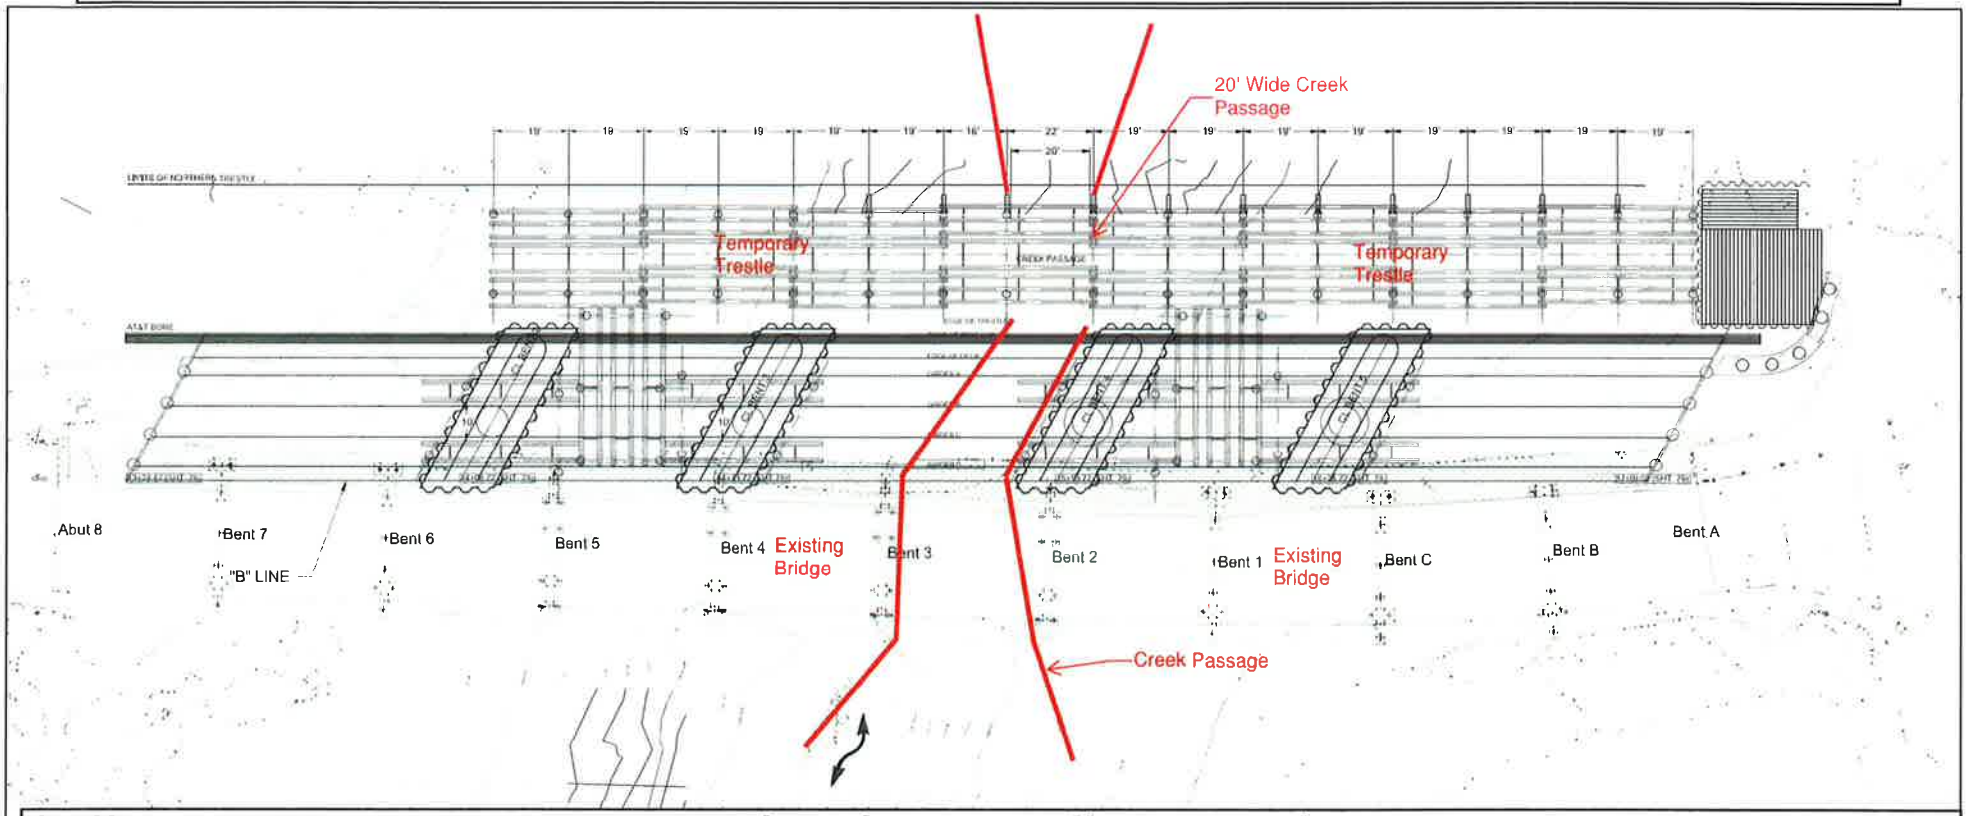
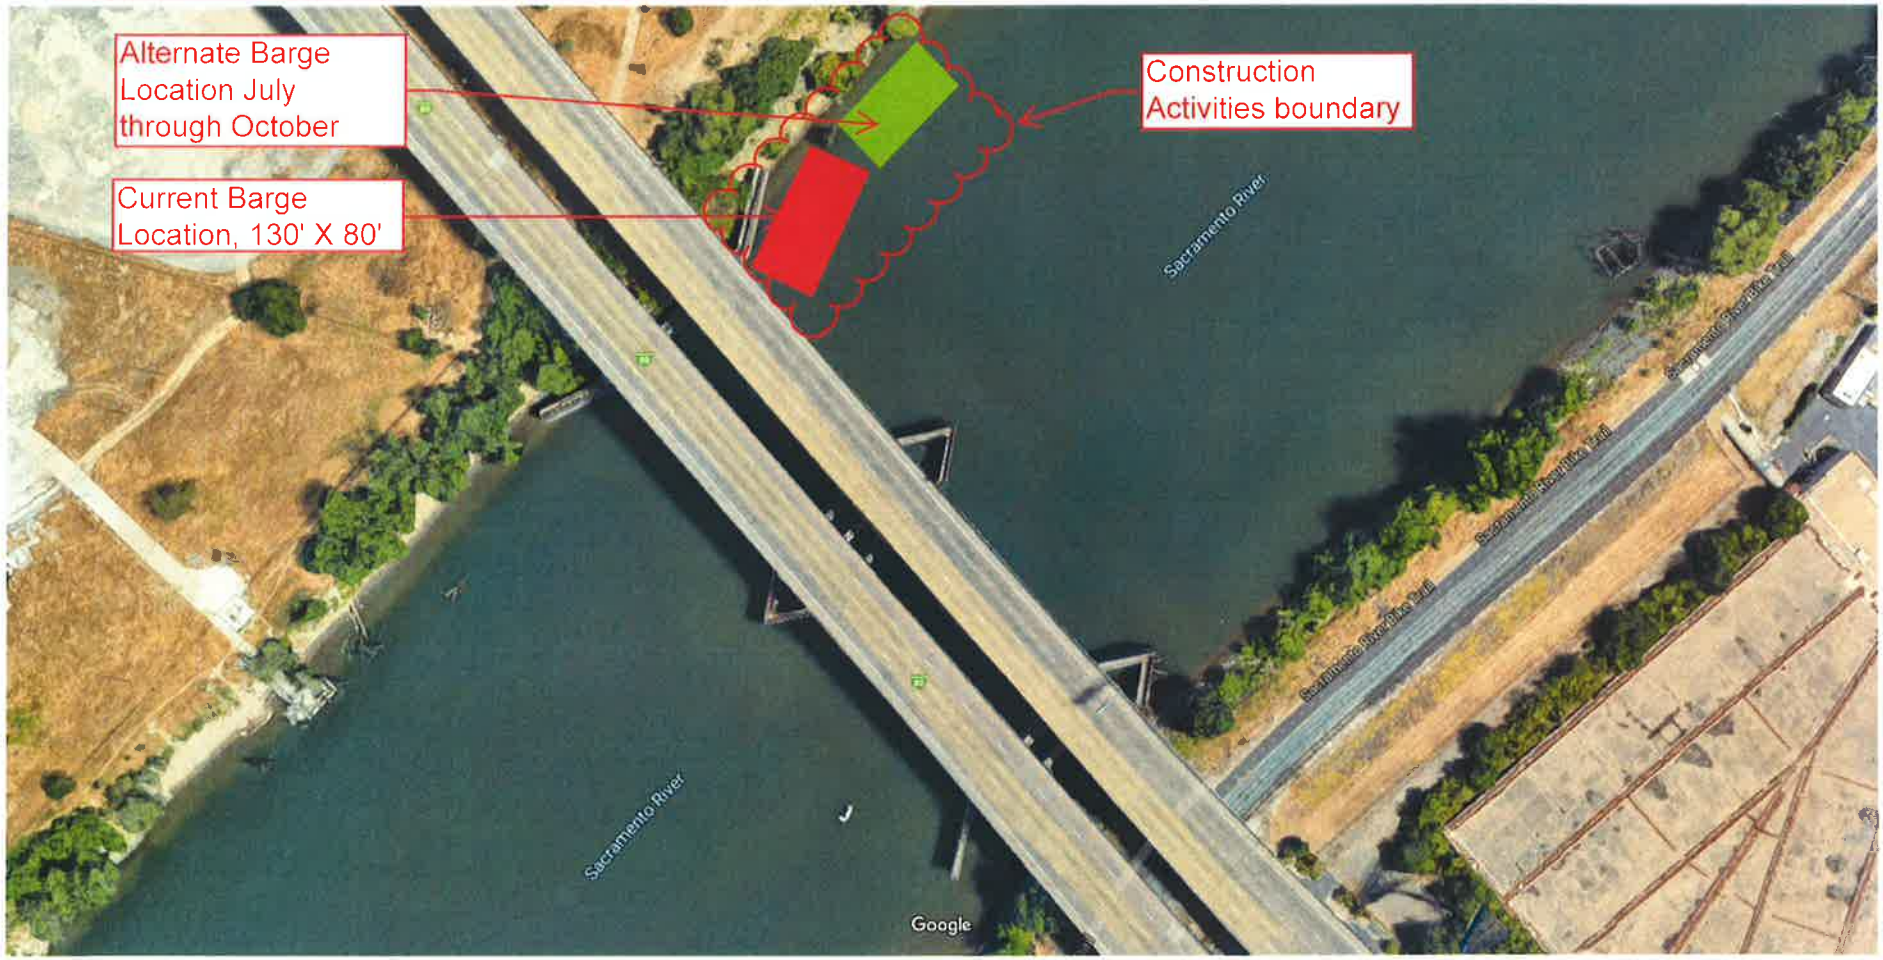
Bon Air Rd Bridge Replacement Project
Mile 2.2, Corte Madera Creek



Cofferdams and a temporary trestle will be installed to facilitate construction of the replacement bridge. The temporary trestle will provide a center creek navigation channel with at least 20 feet of horizontal clearance and 3 feet of vertical clearance, from mean high water to the lowest hittable portion of the trestle, for waterway users. Mariners are urged to use extreme caution when transiting the construction site.

Temporary Barge Mooring
Pioneer Bridge, mile 58.2, Sacramento River



Two work barges, 130' X 80' will be temporarily moored northwest of the Pioneer Bridge on the West Sacramento river bank during the replacement of the pier protection system project at the Tower Drawbridge. The outboard corners of the barges will be lighted at with steady burning white lights so as to be seen by approaching vessels at 2,000 yards.

SAN CLEMENTE ISLAND LIMITED ACCESS ADVISORY

Mariners operating in the vicinity of San Clemente Island are reminded of the **restricted** waterway access surrounding San Clemente Island according to Title 33, Code of Federal Regulations (CFR) Part 165.1131 and 33 CFR 165.1141).

Since the inception of the regulations, Coast Guard Sector San Diego has processed numerous safety zone violations. Safety Zone incursions put the public at risk and cause costly and unnecessary training delays, as well as range cancellations. Violators of the San Clemente Island Safety and Security Zones are subject to monetary penalties. Criminal penalties may also be issued for repeated Safety and/or Security Zone violations. Failure to comply with the federal regulations could result in civil penalties of up to $94,219 under 46 USC 70036(a). Furthermore, if a mariner holds a Merchant Mariner Credential, suspension or revocation action may be pursued against the mariner's credential.

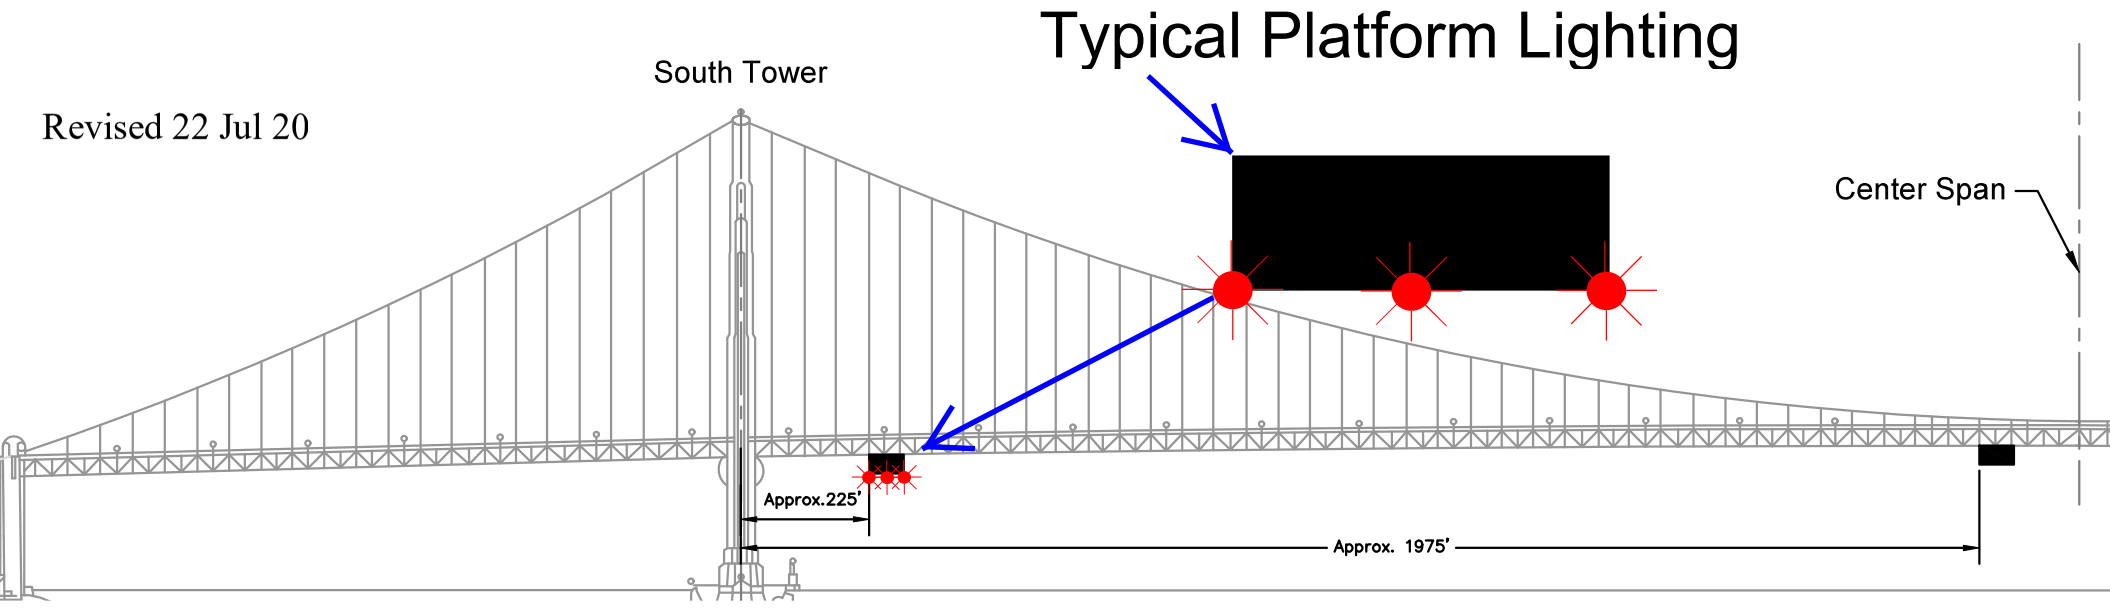
San Clemente Island is a top strategic Department of Defense military training facility. Dangerous naval activities occur weekly to ensure deployable military forces are trained for worldwide missions (e.g. small arms training, ground and air explosive ordinance training). Mariners conducting operations around San Clemente Island must abide by Federal regulations that apply to the three NM radius around the island. Eight zones comprise the Safety and Security Zones. Restriction times are based on U.S. Navy live fire exercises. Wilson Cove Security Zone and Zone G of the Safety Zones are permanently closed. Mariners wishing to transit through Zone G must have preapproval from San Clemente Island. The U.S. Navy makes every effort to maintain a schedule in advance and minimize the restrictions to the public for water access around the island. Periods of enforcement can be found at https://www.scisland.org. Restricted access areas and times are highlighted in red and listed in the associated website chart. If a Safety Zone section is green, mariners may access the waters. Mariners are advised to contact San Clemente Island via call sign "KRAKEN" on VHF CH 82A, or call Coast Guard Sector San Diego Joint Harbor Operations Center on VHF CH16, or at (619) 278-7033 or 7656, to verify real time status of the restricted waters.

If you would like more information about the Security and Safety zones surrounding San Clemente Island, please contact the Coast Guard Sector San Diego Waterways Management Division at 619-278-7656 or by email at D11MarineEventsSD@uscg.mil

Sincerely,

T.J. BARELLI
Captain, U. S. Coast Guard
Captain of the Port San Diego

Temporary Access Platform Golden Gate Bridge Mile 2.5 San Francisco Bay



Two 54 foot wide temporary platforms are installed below low steel of the bridge reducing vertical clearance by no more than 14 feet. The upstream and downstream lower edges of the temporary platform is lighted at night with steady burning red lights see at 2,000 yards by approaching vessels.

U.S. Department of Homeland Security

United States Coast Guard

March 30, 2020

To: All Mariners

The National Oceanic and Atmospheric Administration (NOAA) with support from the United States Coast Guard (USCG) annually issues voluntary Vessel Speed Reduction (VSR) requests that go into effect May 1 off of San Francisco and May 15 off of southern California; please see the attached charts. The goal of these seasonal voluntary VSR zones is to reduce the risk of fatal ship strikes to endangered blue, fin, and humpback whales within and near Greater Farallones, Cordell Bank, Monterey Bay, and Channel Islands national marine sanctuaries. These species are protected under the Federal Endangered Species Act (16 U.S.C. 1538 et seq.), the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.). Any unauthorized take of whales, even if unintentional, by vessels transiting in U.S. waters violates federal statutes.

NOAA and the USCG request that all vessels 300 gross registered tons (GRT) or larger reduce speeds to 10-knots when transiting within the designated VSR zones. We request your cooperation with the voluntary VSR zones to protect whales that annually migrate to these areas in summer and fall to feed. NOAA analyzes all transits by vessels 300 GRT or larger via Automated Information System (AIS) data provided by USCG to assess the industry's cooperation.

NOAA and USCG are committed to the long-term protection of nationally significant marine resources by enhancing marine safety and environmental awareness in the maritime community. We encourage vessel crews to report whale sightings through the Whale Alert App (http://www.whalealert.org). If you have questions, please contact Sean Hastings, (805) 893-6424, sean.hastings@noaa.gov. We appreciate your commitment to protecting endangered and threatened whales by cooperating with the voluntary 10-knot VSR requests in 2020 off of San Francisco and southern California.

William J. Douros, Regional Director
NOAA's Office of National Marine Sanctuaries
West Coast Region

Barry A. Thom, Regional Administrator
NOAA's National Marine Fisheries Service
West Coast Region

Peter Gautier, Rear Admiral
U.S. Coast Guard
District Eleven

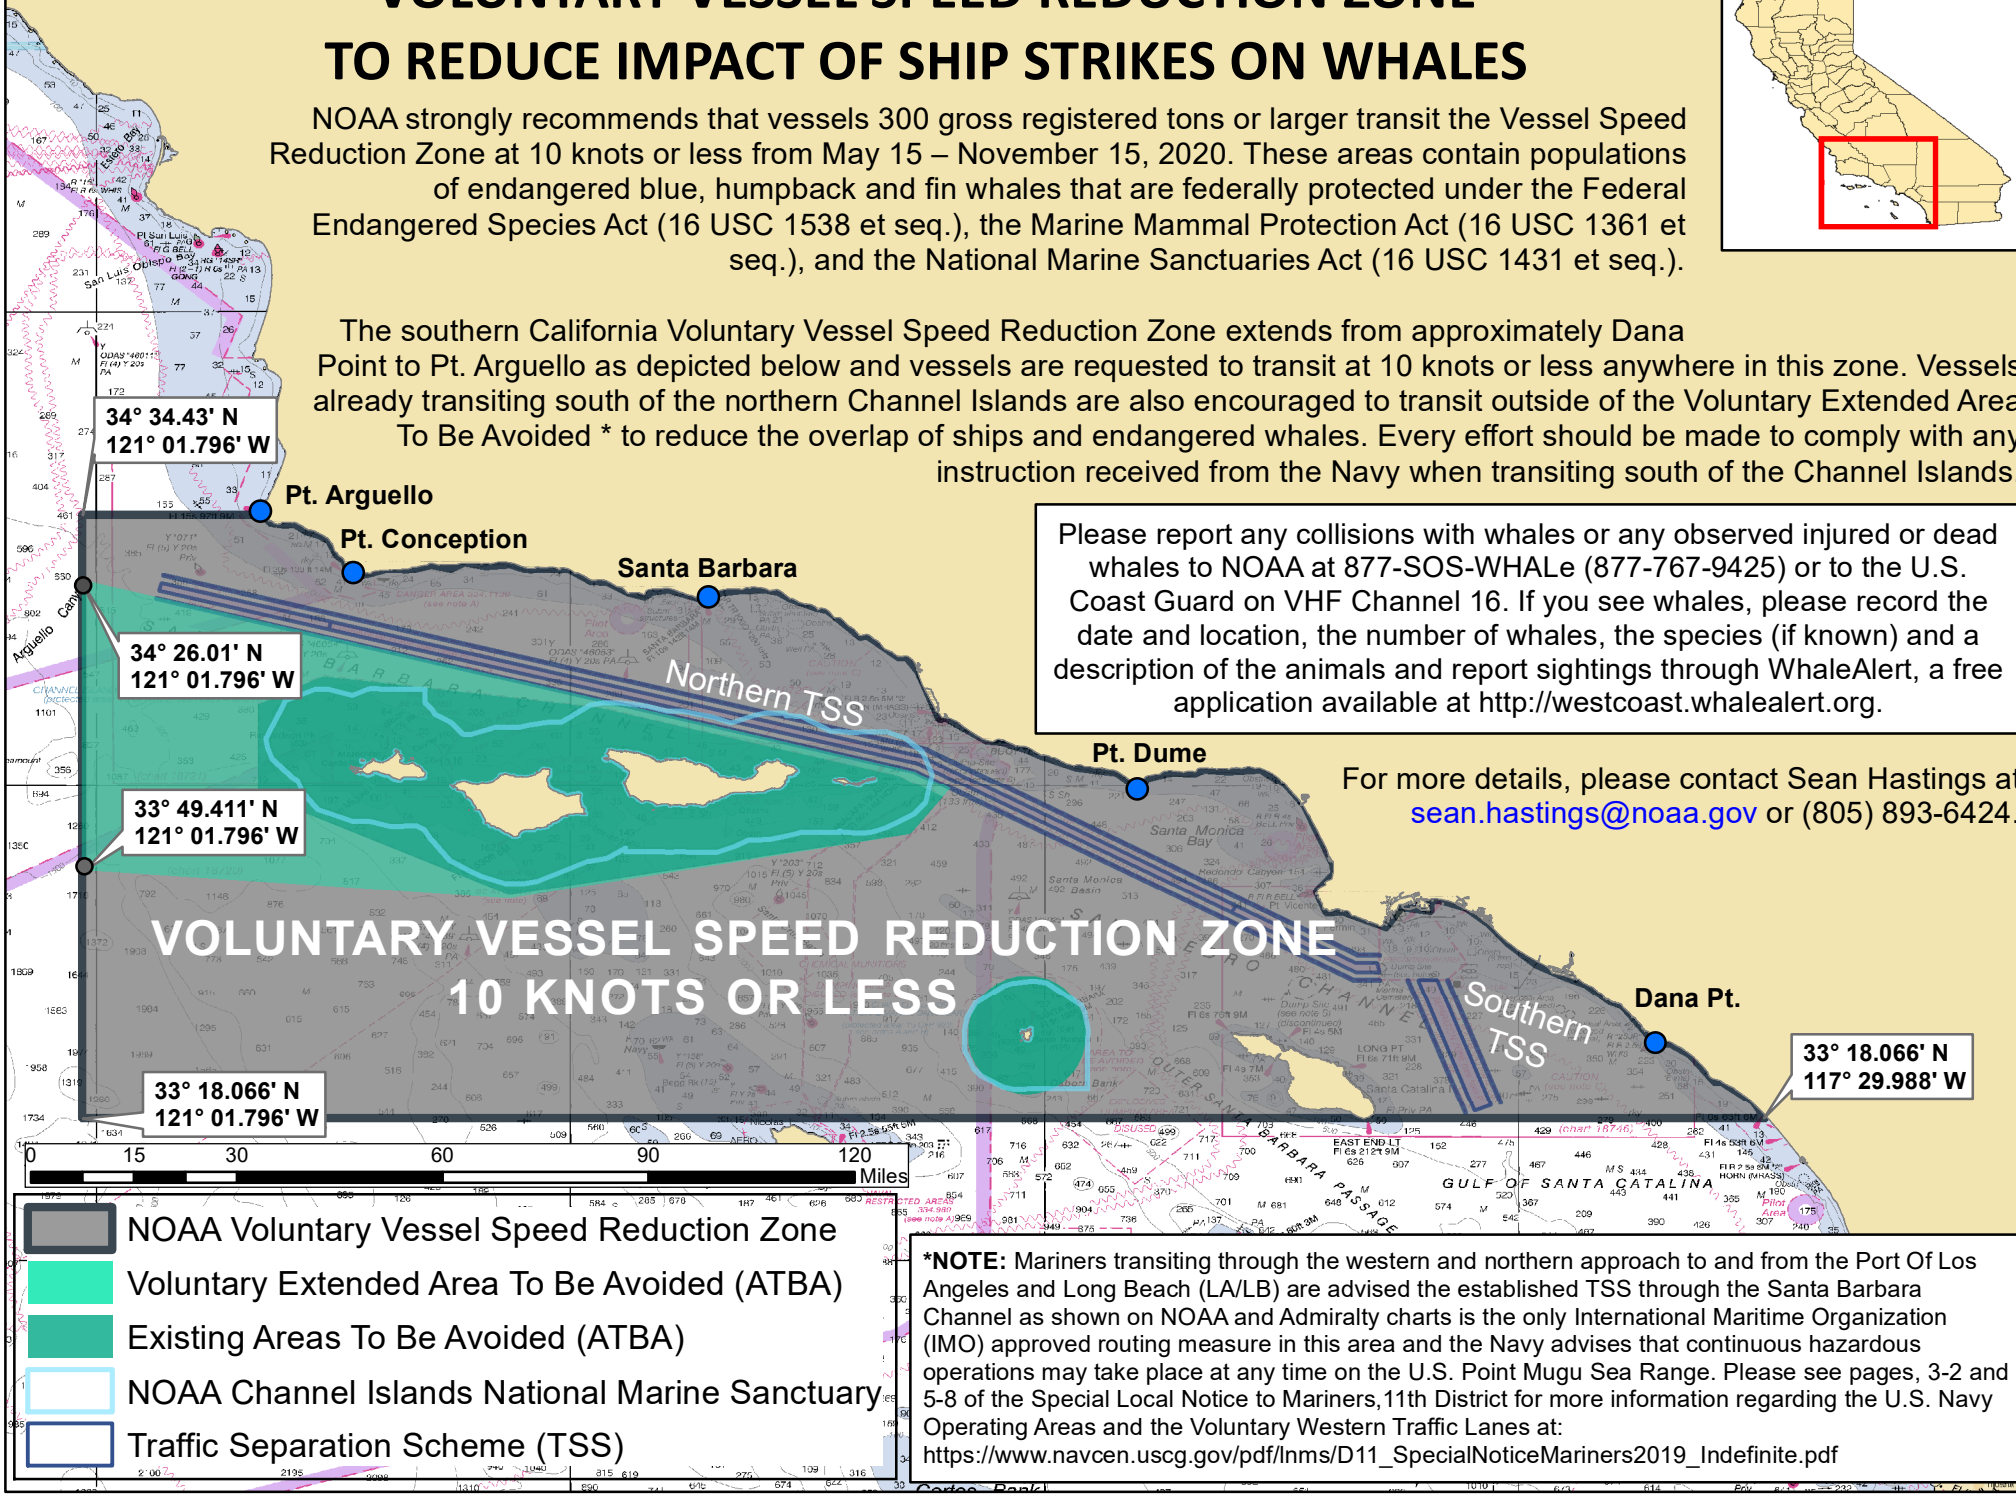
VOLUNTARY VESSEL SPEED REDUCTION ZONE
TO REDUCE IMPACT OF SHIP STRIKES ON WHALES

NOAA strongly recommends that vessels 300 gross registered tons or larger transit the Vessel Speed Reduction Zone at 10 knots or less from May 15 – November 15, 2020. These areas contain populations of endangered blue, humpback and fin whales that are federally protected under the Federal Endangered Species Act (16 USC 1538 et seq.), the Marine Mammal Protection Act (16 USC 1361 et seq.), and the National Marine Sanctuaries Act (16 USC 1431 et seq.).

The southern California Voluntary Vessel Speed Reduction Zone extends from approximately Dana Point to Pt. Arguello as depicted below and vessels are requested to transit at 10 knots or less anywhere in this zone. Vessels already transiting south of the northern Channel Islands are also encouraged to transit outside of the Voluntary Extended Area To Be Avoided * to reduce the overlap of ships and endangered whales. Every effort should be made to comply with any instruction received from the Navy when transiting south of the Channel Islands.

Please report any collisions with whales or any observed injured or dead whales to NOAA at 877-SOS-WHALe (877-767-9425) or to the U.S. Coast Guard on VHF Channel 16. If you see whales, please record the date and location, the number of whales, the species (if known) and a description of the animals and report sightings through WhaleAlert, a free application available at http://westcoast.whalealert.org.

For more details, please contact Sean Hastings at sean.hastings@noaa.gov or (805) 893-6424.



***NOTE:** Mariners transiting through the western and northern approach to and from the Port Of Los Angeles and Long Beach (LA/LB) are advised the established TSS through the Santa Barbara Channel as shown on NOAA and Admiralty charts is the only International Maritime Organization (IMO) approved routing measure in this area and the Navy advises that continuous hazardous operations may take place at any time on the U.S. Point Mugu Sea Range. Please see pages, 3-2 and 5-8 of the Special Local Notice to Mariners,11th District for more information regarding the U.S. Navy Operating Areas and the Voluntary Western Traffic Lanes at: https://www.navcen.uscg.gov/pdf/lnms/D11_SpecialNoticeMariners2019_Indefinite.pdf

Notice to Mariners

Email: **D11LNM@uscg.mil**
Reference: **Remote Operated Vehicle (ROV) Live Boating Operations Notice to Mariners and Fishermen**

On or about August 10, 2020 the M/V Clean Ocean; official number 1077091; call sign WDE 7605; will be conducting underwater pipeline inspection work with an ROV. The operations will include Live Boat ROV pipeline inspections. The Clean Ocean operations will be conducted on a 24 hour per day basis

Start Date: On or about August 10, 2020 to August 24, 2020
Owner: Freeport McMoRan Oil and Gas
Duration of Project: Approximately 14 days

Location: Please see attached Maps

The Clean Ocean will be monitoring channel 16 and Bridge phone (805) 218-3023 and SAT (254) 377-0446. The Clean Oceans general description is the following: 155' LOA; black hull with white superstructure; typical Supply boat configuration with deck-mounted crane.

We appreciate your assistance in this regard and should you have any questions please do not hesitate to contact the undersigned @ (805) 676-4330 or 805-452-7923.

Sincerely,
Aqueos Corporation
Jeff Kowalishen
Manager
